

ABC Jazzy - Writing your own Jazzy finds book.

Prepare board and flip cards in advance.

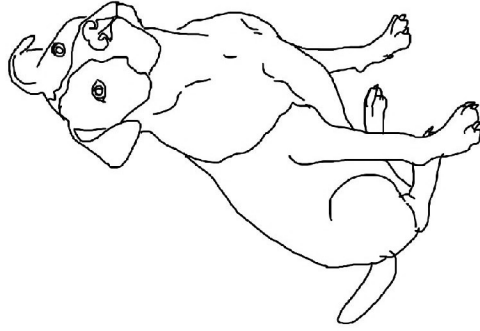

For the board. Cut out the letters with the Jazzy pictures and paste onto large board allowing 3 inches in-between (or two inches below). (Dollar Tree science board works great. A foam board will also work but the letters will need to be trimmed to allow space to add the flip cards.)

Create flip cards (or use the ones I already made). These are 2 x 3 inch cards with pre written words, two for each letter. Children can choose which word they want to use. I often pair up a child's first name with the letter and let only children whose name starts with that letter, choose the word.

Read ABC Jazzy. Discuss being an author and tell children they can be authors too. Tell the children they are going to write their own ABC Jazzy book.

Using the board and flip cards, have the children pick a new object to go with each letter. Hang the picture (tape works) next to or under (depending upon where you left the space) the letter.

Read the story again inserting the choices the children made on the board. Jazzy found the a _____ etc.
